

Mobile Commerce Solutions

Increase sales and service with convenient, secure mobile commerce solutions.

What We Do

3Ci improve business processes using integrated mobile software and services. By automating processes such as ERP and CRM—and extending them to the mobile channel—3Ci helps our customers improve efficiency, communication, customer service and profitability. Our solutions work with any mobile device, regardless of operating system or carrier.

Mobile Commerce Solutions

3Ci's mobile platform enables commerce and secure payment processing via mobile devices. By making purchases more convenient for customers, your company can shorten collection cycles, increase sales and develop new revenue streams. We leverage our experience in the worlds of e-commerce, credit card processing and telephone billing to develop and deploy mobile commerce solutions, and improve the efficiency and security of processes already in place. 3Ci mobile commerce solutions work throughout the world on virtually any device and carrier network.

Mobile Payments

Make it more convenient for your customers to make purchases and pay bills—shortening collection cycles and increasing sales.

Use Case Examples

Switchblade® Platform

Switchblade was built from the ground up to be flexible, scalable and extensible.

Switchblade integrates with your internal systems providing a single access point to mobile carriers and subscribers throughout the world. Using blended communication methods, Switchblade enables you to extend sophisticated business processes to all of your consumers and employees. Its high-availability, secure infrastructure processes billions of mobile transactions per year— many of which are time-sensitive and mission-critical.

How it works
Enterprise Platform
3Ci's Switchblade® Platform
End User

- ① Client sends request to 3Ci

- ② 3Ci processes request and sends text message to End User containing mobile web link

- ④ 3Ci updates client platform with user response(s).

- ③ End User visits mobile web page, responding to the provided information. 3Ci processes response.
